

Summed salmon parr productivity in US Functional network

- Category: Sea Run
- The summed Atlantic Salmon parr productivity in a barrier's Upstream Functional Network. Salmon parr productivity obtained from a GIS-based habitat model that predicts the amount of accessible Atlantic salmon rearing habitat throughout the Gulf of Maine Atlantic Salmon DPS¹
- Units: # (Predicted parr production based on habitat units and predicted parr density)
- Sort Order: Descending
- GIS Field Name: US_SalmParrProd
